IUCN Species Redlist	40

Displaying project location and buffers: 1km | 4km

About this report

This report presents the results of [License Number] proximity analysis to identify the biodiversity features and species which are located within 1km | 4km.

The report is one part of a package downloaded from the IBAT Platform on 21/05/2018 which also contained the full list of all species, protected areas and key biodiversity areas, maps showing the area of interest in relation to these features, and legal information.

Data used to generate this report

IUCN and UNEP-WCMC, 2017. The World Database on Protected Areas (WDPA) [On-line], January 2017

BirdLife International (on behalf of the KBA Partnership), 2016. Key Biodiversity Areas: December 2016 version.

IUCN, 2016. The IUCN Red List of Threatened Species grid analysis of range maps. Version 2016.3 (Decemeber).

Protected Areas

For further details please refer to the associated csv file in the report folder.

Area name	Distance
Barnsbury Wood	4km
Battersea Park Nature Areas	4km
Camley Street Nature Park	4km
St John's Wood Church Grounds Wildlife Garden	4km

Key Biodiversity Areas

For further details please refer to the associated csv file in the report folder.

Area name	Distance
-----------	----------

IUCN Red List of Threatened Species

The following species are potentially found within 50km of the area of interest.

For the full IUCN Redlist please refer to the associated csv in the report folder.

Species name	Common name	IUCN Category	Group
Acipenser sturio	Atlantic sturgeon	CR	Actinopterygii
Acrocephalus paludicola	Aquatic warbler	VU	Aves
Aesculus hippocastanum	Horse chestnut	VU	Magnoliopsida

Species name	Common name	IUCN Category	Group
<i>Alopias vulpinus</i>	Common thresher shark	VU	Chondrichthyes
<i>Anguilla anguilla</i>	European eel	CR	Actinopterygii
<i>Anser erythropus</i>	Lesser white-fronted goose	VU	Aves
<i>Astacus astacus</i>	Noble crayfish	VU	Malacostraca
<i>Austropotamobius pallipes</i>	White-clawed crayfish	EN	Malacostraca
<i>Aythya ferina</i>	Common pochard	VU	Aves
<i>Balaenoptera borealis</i>	Sei whale	EN	Mammalia
<i>Balaenoptera musculus</i>	Blue whale	EN	Mammalia
<i>Balaenoptera physalus</i>	Fin whale	EN	Mammalia
<i>Balistes capriscus</i>	Gray triggerfish	VU	Actinopterygii
<i>Buellia asterella</i>	Starry breck lichen	CR	Lecanoromycetes
<i>Cetorhinus maximus</i>	Basking shark	VU	Chondrichthyes
<i>Cyprinus carpio</i>		VU	Actinopterygii
<i>Damasonium alisma</i>	Starfruit	VU	Liliopsida
<i>Dipturus batis</i>	Common skate	CR	Chondrichthyes

Species name	Common name	IUCN Category	Group
<i>Fratercula arctica</i>	Atlantic puffin	VU	Aves
<i>Galeorhinus galeus</i>	Tope	VU	Chondrichthyes
<i>Hygrocybe citrinovirens</i>	Citrine waxcap	VU	Agaricomycetes
<i>Hygrocybe ingrata</i>	Dingy waxcap	VU	Agaricomycetes
<i>Isurus oxyrinchus</i>	Shortfin mako	VU	Chondrichthyes
<i>Lamna nasus</i>	Porbeagle	VU	Chondrichthyes
<i>Limoniscus violaceus</i>		EN	Insecta
<i>Margaritifera auricularia</i>	Spengler's freshwater mussel	CR	Bivalvia
<i>Mola mola</i>	Ocean sunfish	VU	Actinopterygii
<i>Mustelus mustelus</i>	Common smoothhound	VU	Chondrichthyes
<i>Pedostrangalia revestita</i>		VU	Insecta
<i>Physeter macrocephalus</i>	Sperm whale	VU	Mammalia
<i>Podiceps auritus</i>	Horned grebe	VU	Aves
<i>Pseudanodonta complanata</i>	Depressed river mussel	VU	Bivalvia
<i>Puffinus mauretanicus</i>	Balearic shearwater	CR	Aves

Species name	Common name	IUCN Category	Group
<i>Rissa tridactyla</i>	Black-legged kittiwake	VU	Aves
<i>Sphaerium rivicola</i>	River orb mussel	VU	Bivalvia
<i>Squalus acanthias</i>	Spiny dogfish	VU	Chondrichthyes
<i>Streptopelia turtur</i>	European turtle-dove	VU	Aves
<i>Thunnus thynnus</i>	Atlantic bluefin tuna	EN	Actinopterygii
<i>Trachurus trachurus</i>	Atlantic horse mackerel	VU	Actinopterygii
<i>Tricholoma acerbum</i>	Bittermusseron	VU	Agaricomycetes

Limitations

This report provides an indication of the potential biodiversity-related features - protected areas, key biodiversity areas and species - close to the specified location. It provides an early indication of potential biodiversity concerns, and can provide valuable guidance in making decisions. For example, this information can be helpful when assessing the potential environmental risk and impact of a site, categorising investments/projects, preparing the terms of reference for an impact assessment, focusing attention on key species of conservation concern and sites of known conservation value, and reviewing the results of an impact assessment.

The report does not provide details of potential indirect, downstream or cumulative impacts. Furthermore, the report should be regarded as a “first-step”, providing a set of conservation values sourced from global data sets, and is not a substitute for further investigation and due diligence, especially concerning national and/or local conservation priorities.
